## Handy-Type Metal-Mask Cleaner

**RMC1000 is for manual metal-Mask Cleaner.**

**It is a metal mask cleaner kit for reworking systems. .**

**It is a handy type which cleans the 45Φ mm in diameter easily.**

**It can be used for the metal mask of all sizes. .**

### Outline

RMC1000 cleans a metal mask by TPT (twist peeling Off technology) of an ultrasonic. At TPT, the output of an ultrasonic wave is twisted by a reflector, and it cleans at high efficiency by combining them.

With a **SND** printing tool

With a **RBC-1** printing tool

The cleaning unit is a handy type 60 mm in diameter. And work is very easy because it is the weight of 400 g. Moreover, MRC1000 is the kit which arranged all tools required for cleaning. (Except a solvent)

In **5565/5560** size mask

Please set the metal mask on it after putting a soft pad on the palette. And please apply a suitable amount of Solvent to the metal mask with an attached flux pen.

If a cleaning-head is setting and cleaning is started, a metal mask will be cleaned in about 10 seconds.

please exchange the soft pad for timely. Because a soft pad takes in the dirt of a metal mask.

The USB microscope-camera is used connecting with your PC. The magnification of the maximum is 250.

USB Camera
